

**Létoublon, Françoise. 1985.** Il allait, pareil à la nuit. – Les verbes de mouvement en grec: supplétisme et aspect verbal. Paris.

The book gives a detailed study of the relationships between the forms of the Ancient (Homeric) Greek verb 'go': *erxomai* (present) *eimi* (future), *elthon* (aorist) and *elelutha* (perfect). The author believes that the semantic approach of obtaining the paradigms (i.e. relying on the translations) is not sufficient, and to claim that certain forms belong to the same paradigm it is necessary to take into account the semantics, the syntax and the contexts the forms appeared in. It is claimed that the suppletion in the verb 'go' reflects the earlier aspectual (Aktionsart) differences of the forms.
