TEMPLATE FOR ABSTRACTS SUBMITTED FOR THE 2015 ISIE CONFERENCE

You will be asked to list authors in the form:

Roland Clift  
Centre for Environmental Strategy, University of Surrey, UK

Melanie Quigley  
Centre for Industrial Ecology, Yale University, USA

You will be asked to indicate author for correspondence and also presenting author

Main body of abstract will be required as in the following:

Abstracts are invited for presentation as platform talks or posters at the 8th conference of the International Society for Industrial Ecology, to be held at the University of Surrey, Tuesday 7th July to Friday 10th July 2015. The conference provides an opportunity for discussion of the latest research in the field of Industrial Ecology, using that phrase in the sense which has become understood following the pioneering work of Frosch and Gallopoulos (1989). Abstracts will be double peer-reviewed and those accepted, for poster or platform presentation, will be included in the electronic documents provided to conference attendees. However, they will not be published more widely, so that authors are free to submit their work for subsequent publication elsewhere. Authors of abstracts accepted will have an opportunity to make minor revisions to their abstract in the light of the reviewers’ comments before they are included in the conference proceedings.

Abstracts are limited to one page, i.e. maximum length about 400 words, with about 200 words as the minimum length expected. Any references cited should be in the format used by the Journal of Industrial Ecology.
