Advanced Assessment and Clinical Reasoning

Module Code NURM186

Credits / Level of Study 15 credits / Level 7

Module Overview
This module will explore advanced practice within the context of clinical decision making and reasoning based upon the comprehensive physical, social and psychological assessment of the patient / client to inform care decisions

Module Aims
Equip practitioners with a knowledge and understanding of the concepts of advanced practice building upon and developing their reasoning skills based upon a comprehensive physical, social and psychological assessment to inform their patient/ client management

Learning Outcomes
On completion of the module, the student should be able to:

- Act autonomously and responsibly when undertaking complex health assessments.
- Critically evaluate key concepts and debates related to advanced practice in contemporary healthcare delivery.
- Identify advanced concepts underlying theoretical assessment frameworks and use a range of assessment methods to communicate their findings to support their judgements and potential interventions.
- Analyse the importance of shared decision making within different healthcare settings.
- Be aware of own capabilities in key assessment areas and engage in assessment development activity through guided self-reflection.

Pre-requisites of Study
To have completed Health Assessment Module or equivalent at Level 6/7
Work based supervisor/ assessor 20 hours

Delivery of Module
- Lectures
- Discussion
- Workshops
- Work based Learning
- Problem Based Learning
- Simulation Learning
- E-Learning resources

Assessment
OSCE
Clinical Log
Assignment: Word Count - 1500 words

Key Information

Study Dates
March 2019: 4, 18
April 2019: 1, 29
May 2019: 13, 28
June 2019: 3

OSCE - This will be during the week commencing 22 July 2019
NB Attendance is mandatory

*Please check our website to ensure that there have been no revisions to the course dates listed

Location
University of Surrey

Cost £1170.00
