Anaesthetic Practitioner Part 2
Module Code HCRM018

Credits / Level of Study  15 credits / Level 7

Module Aims
This module aims to develop safe, competent and confident anaesthetic practitioners who can underpin their practice with appropriate evidence across a range of surgical specialties.

Learning Outcomes
On successful completion of this module, students will be able to:
- Critically analyse the anatomical and physiological measurements associated with patients undergoing anaesthesia and evaluate the outcomes
- Explore and critically examine the pharmacokinetics of peri-anaesthesia drugs
- Critically analyse and evaluate the medicolegal and ethical dimensions associated with safe anaesthetic care
- Initiate, manage and evaluate the research based care of the child/adult requiring anaesthesia, taking into account issues that are multifactorial to develop an achievable action plan
- Critically evaluate the issues of accountability, responsibility and role limitations within professional boundaries for the anaesthetic practitioner and future anaesthetic practice
- Achieve and apply competencies within the anaesthetic care practitioner's role to demonstrate the application of national and local anaesthesia practitioner policies to their practice

Module Content
Indicative content includes:
Principles of anaesthetic care practice:
- physiological parameters and advanced airway management;
- extended surgical anaesthesia;
- paediatric anaesthesia;
- obstetric anaesthesia;
- evaluating anaesthetic care;
Health, safety and risk:
- complex risk assessment;
Law and ethics:
- complex legal issues and accountability;
- Specialist skills and role expectations:
- competency frameworks;
- specialist skills and core competencies;
- critical evaluation;
- complex care planning - opportunities and considerations;
- action planning - short, medium and long term objectives.

Pre-requisites/co-requisites of study
Students must be registered with their respective professional bodies (NMC/HCPC). It is necessary for the student to be working in a clinical area that allows them to meet the learning outcomes.

Successful completion of Anaesthetic Practitioner Part 1 (HCRM017) is a pre requisite for this module.

Delivery of Module
The learning and teaching strategy is designed to:
- Enable students to have a deep and systematic understanding of anaesthetic practice
- Anaesthesia and patient safety within an organisational context
- To draw upon their own experience to develop their understanding of the current evidence base for anaesthetic practitioner practice

The learning and teaching methods include:
- Lectures
- Workshops
- Scenarios
- On line tutorials
- E learning

Assessment
TBC

Key Information

Study Dates
May 2017:  8, 9, 10
June 2017: 13

*Please check our website to ensure that there have been no revisions to the course dates listed

Location
Duke of Kent Building, University of Surrey

Cost £920.00
