Chemotherapy Nursing Practice: Issues in Care & Management
Module Code NUR3303

Credits / Level of Study 15 credits / Level 6

Module Aims
The aim of this module is to develop existing competencies in chemotherapy practice to enable senior cancer nurses to explore and debate existing practice issues at local and national levels.

Learning Outcomes
On completion of the module, the student should be able to:

- Expand their existing theoretical base to enhance their own and others’ practice in relation to the care pathway of a person with cancer who requires cytotoxic chemotherapy treatment including cancer biology and cytotoxic pharmacology.
- Explore their clinical role in terms of nurse led practice and multi-disciplinary team education.
- Critically analyse their chemotherapy service in terms of leadership and management issues.
- Critically reflect on their professional practice and evaluate the need for service improvement and practice development.

Pre-requisites of Study
None

Delivery of Module
Blended learning –
- online workbook to include practice scenarios
- interactive lectures/discussions
- student led seminars
- simulation scenarios in skills labs e.g. neutropenic sepsis

Work based learning –
- supervised practice
- portfolio of clinical practice to include National Occupational Standards for Chemotherapy
- tutor led clinical seminars in practice

Assessment
- Presentation of a reflective case study, care of patient receiving chemotherapy, 50%
- Practice portfolio 50%

Key Information

Study Dates
Taught Sessions
September 2016: 26
October 2016: 21
November 2016: 18
December 2016: 16
January 2017: 13
Assessment: 17 February 2017

Practice Days: (5 to be negotiated with practice to be taken between, Oct 2016 and April 2017)
*Please check our website to ensure that there have been no revisions to the course dates listed

Location
Duke of Kent Building, University of Surrey

Cost £1,050.00
