Complex Health Assessment  
Module Code NURM109

**Credits / Level of Study**  
15 credits / Level 7

**Module Aims**  
To engender autonomous learning and understanding to advanced health assessment from a multi-professional and multi-agency perspective in health and social care domains.

**Learning Outcomes**  
On completion of the module, the student should be able to:

- The Advanced Practitioner will demonstrate advanced understanding and application of generic consultation skills and assessment frameworks when undertaking complex health and social care patient assessments.
- The Advanced Practitioner will apply advanced physical assessment knowledge to operate as a “generalist”, or supplement their specialist skills to complete episodes of care for patients of any age group in both primary and secondary care.
- The Advanced Practitioner will critically evaluate and synthesise current evidence supporting holistic and systematic patients’ examinations, and diagnose patients with complex needs, where appropriate.
- The Advanced Practitioner will apply a range of assessment tools and methods to identify patient cues to support different diagnoses.
- The Advanced Practitioner will make professionally autonomous decisions for which they are accountable.
- The Advanced Practitioner will communicate patient assessment findings to other members of the inter-disciplinary team to facilitate a collaborative and integrated approach to complex patient care.
