Concepts of Advanced Practice
Module Code NURM110

Credits / Level of Study 15 credits / Level 7

Module Aims
To explore and analyse the concept of advanced practice and develop the skills and characteristics of an advanced practitioner.

Learning Outcomes
On completion of the module, the student should be able to:

• Develop critical responses to existing theoretical, historical and methodological approaches in advanced practice.
• Critically evaluate key concepts and debates related to advanced practice.
• Incorporate a critical and analytical approach to the contribution of advanced practice to contemporary healthcare delivery.
• Demonstrate an understanding of a range of models and theories in relation to advanced practice.
• Critically reflect on her/his personal and professional development as an advanced practitioner.

Pre-requisites of Study
None

Delivery of Module
• Interactive lectures
• Discussions
• Seminar presentations
• Experiential workshops

Assessment
The module has two parts to assessment:

Part 1 - Develop a personal development plan that is meaningful, realistic and achievable using the pebble pad tool to create a webfolio, and critically reflect on your development plan.

Word Count: 1,000 words (40%)

Part 2 - Appraise your development as an advanced practitioner with reference to evidence-based literature.

Word Count: 2,000 words (60%)
