Health Promotion: Partnership and Enablement

Module Code NURM118

Credits / Level of Study  15 credits / Level 7

Module Aims
The aim of this module is to enable students to gain confidence and competence in using a variety of approaches to promote healthy lifestyles with individuals, groups and communities.

Students will be introduced to strategies, such as motivational interviewing, which can be used in partnership with clients to empower them to make changes which will maximise their health potential.

The concept of health promotion will be set in the context of contemporary health policy and the underlying political agenda will be discussed. The role of social capital in promoting health will be explored.
