Module Aims
To introduce the student to the Post-Anaesthetic Care area of the operating department to enable them to develop the skills required to undertake post-anaesthetic care of all identified patient groups and to apply relevant knowledge and understanding whilst participating in the process of care delivery in the immediate post-anaesthetic period.

Module Content
This module covers every aspect of Post Anaesthetic Care including: A&P, pain theory, pharmacology, respiration, co-morbidities and PONV

Pre-requisites of Study
Must be a registered nurse, midwife or ODP

Delivery of Module
Web based lectures, web based study, simulations, facilitated discussions.

Assessment
Students will be expected to pass an online examination covering a variety of the module content. The exam is a mixture of MCQ, SAQ and Extended Matching Questions. 100%
