Supporting Education in Practice
Module Code NURM147

Credits / Level of Study  15 credits / Level 7

Module Aims
The aim of this module is to consider and critically evaluate links between theory and practice to explore strategies relevant for the facilitation and assessment of learning within the work place.

Learning Outcomes
On completion of the module, the student should be able to:
- Critically examine and evaluate the methods of facilitating learning within work-based settings whilst analysing the nature of practice education, the perceived demands of inter/multi-professional practice.
- Critically explore and reflect on theories of learning, teaching, assessment and accountability relevant to practice in order to critically evaluate evidence based strategies to assist with the integration of theory and practice.
- Analyse and implement educational standards through effective use of communication and leadership skills in order to create an optimum learning experience.

Pre-requisites of Study
None

Delivery of Module
A variety of teaching and learning strategies will be applied throughout the module:
- teacher-led sessions,
- case studies,
- discussion groups,
- seminars,
- experiential workshops,
- small group work and large group discussions,
- role modelling
- active learning methods, such as problem-based learning, enquiry-based learning and action learning.
- blended learning
- Technology Enhanced Learning

Emphasis will be placed upon work-based/practice based learning and teaching, with opportunities for students to explore and share their views and experiences with regard to the facilitation of learning and evidence-based practice within their working environment.

Assessment
This module will be assessed through the completion of an academic essay.

Key Information
