Transforming Services for Quality
Module Code HCR3008

Credits / Level of Study
15 credits / Level 6

Module Aims
This module aims to:
- Examine the current health and social care agenda
- Support students to explore innovative new ways of working and how these could potentially improve the quality of care received by patients, clients, carers and the public.
- Students will be enabled to reflect upon and justify the need for effective change management and implementation.

Learning Outcomes
On successful completion of this module, students will be able to:
- Demonstrate knowledge and understanding of the current healthcare agenda and its impact on health and social care provision.
- Explore current innovative practice in health and social care delivery, relating to a specific area of practice
- Critically assess the role of change in the process of innovation
- Examine opportunities to overcome resistance and barriers to change.

Module Content
Indicative content includes:
- Exploring the challenges for modern healthcare provision
- Identifying opportunities to improve quality
- The concept of quality from differing perspectives
- Innovation and service redesign in practice
- Analysis of barriers to change
- Negotiating, influencing and managing change

Assessment
A summative assessment comprising of:
A report exploring the opportunities and challenges involved in transforming services for quality, within a specific area of healthcare.
