

*INNOVATIVE CONVERGENCE UNIVERSITY
FOR A SMART NEW WORLD*

INTRODUCTION TO DGIST

young and small, but strong

* Year of the 1st Matriculation

An Institute of Science and Technology
founded by the Korean Government

To benefit society through development and
advancement of science and engineering

- **by conducting research on grand challenge issues**
that face the mankind and
- **by educating talents who will make the world
a better place** through discoveries and innovation

OVERVIEW ON DGIST

HISTORY

* Alumni : 96 Bachelor's, 279 Master's, 40 Doctoral degrees conferred (as of Feb 2018)

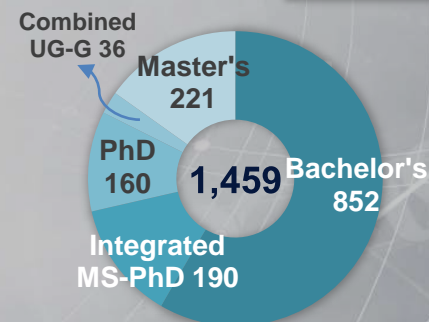

MEMBERS

Total **2,083**
As of February 26 2018

Faculty & Staff

Student

Unit: number of persons

DGIST

KEY VALUE

VISION

WORLD-LEADING
CONVERGENCE UNIVERSITY

EDUCATIONAL PHILOSOPHIES: 4Cs

DGIST SPIRITS: M.V.P.

Mission

A clear mission to fulfill roles and responsibilities given by the nation and world

Vision

An enterprising vision to go beyond excellence

Passion

An undaunted passion to achieve the mission and vision

KEY RESEARCH AREAS

M

Emerging Materials

- Quantum materials
- Nano / Bio Materials
- Computational materials

I

Information & Communication Technology

- Cyber Physical Systems
- Bio-medical Systems
- Smart Connected Systems

R

Medical Robots

- Surgical Robot
- Rehabilitation and Life Support Robots
- Bio Micro-Nano Robot / BR
- Robot Design & Service Robot

Green Energy

E

- Renewable Energy
- Energy conversion and storage
- Materials design

B

Brain & Cognitive Sciences

- Neuro-metabolism
- Sensory Systems
- Neuro-degeneration
- Theoretical Biophysics

N

New Biology

- Aging Biology
- Nano-bio Imaging
- Systems and Complex Biology
- Bio-sustainability
- Biochemistry and Biophysics

SCHOOLS AND RESEARCH INSTITUTES/CENTERS

College of Transdisciplinary Studies

Single School without Department

School of Undergraduate Studies

Graduate School

6 Majors

Emerging Materials Science
Information & Communication Engineering
Robotics Engineering
Energy Science & Engineering
Brain & Cognitive Sciences
New Biology

Office of Research Affairs

3 Centers

Center for Core Research Facilities
Supercomputing and Big Data Center
Laboratory Animal Resource Center

Convergence Research Institute

11 Research Centers and 4 Research Groups

Research Center for Solar Energy
Research Center for Wellness
DGIST-LBNL Research Center for Emerging Materials
Research Center for Resilient Cyber Physical Systems
Research Center for Microlaser Technology
Research Center for Future Automotive Technology
DGIST-ETH Microrobotics Research Center
Core Protein Resources Center
Well Aging Research Center
Research Center for Collaborative Robots
Global Center for Bio-Convergence Spin System
Companion Diagnostics and Medical Tech Research Group
Smart Textile Convergence Research Group
Magnet-Controlled Materials Research Group
Intelligent Devices and Systems Research Group

University-Industry Cooperation Support

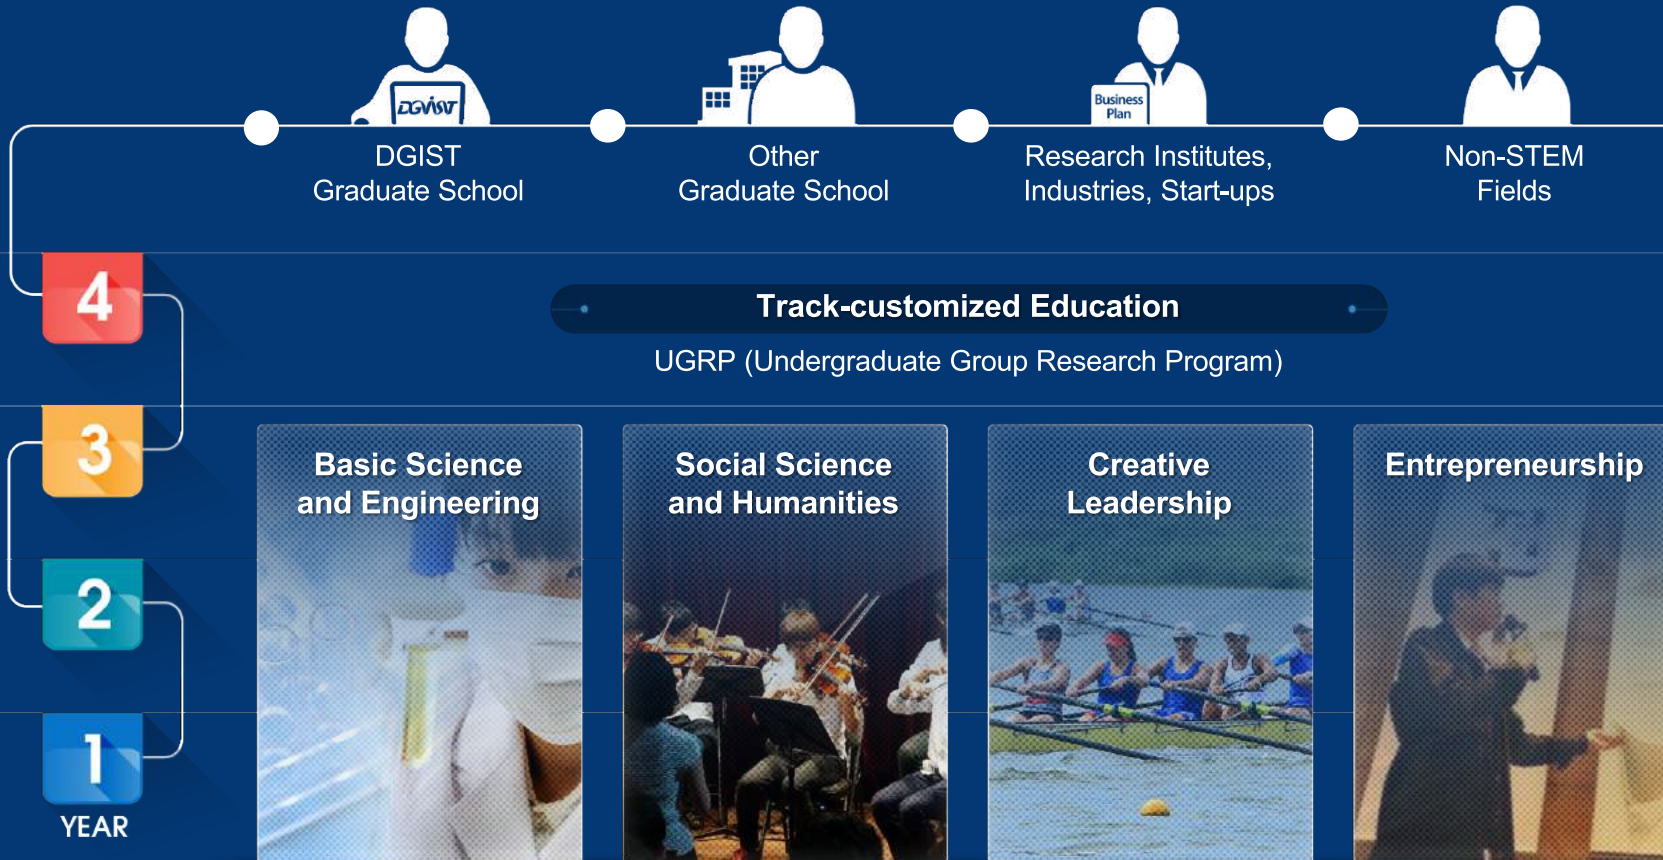

Center for Technology Commercialization
Start-up Accelerator
Intellectual Property Management Team
Business Incubation Team

Other Research Institutes

- Center for Plant Aging Research,
Institute for Basic Science
- Korea Brain Research Institute

UNDERGRADUATE PROGRAM

“**INNOVATIVE CURRICULA** FOR THE FUTURE CONVERGENCE ERA”

GRADUATE SCHOOL

Pursuing the state-of-the-art science on new materials via interdisciplinary research

Emerging Materials Science

- Quantum materials
- Nano / Bio materials
- Computational materials

Embracing the next generation through convergence of information and communication

Information & Communication Engineering

- Cyber Physical Systems
- Bio-medical Systems
- Smart Connected Systems

A Mecca of core-technologies in medical robotics - the aspiration of Robotics Engineering Major of DGIST

Robotics Engineering

- Surgical Robot
- Rehabilitation/Life Support Robots
- Bio Micro-Nano Robot / BR
- Robot Design & Service Robot

Research and Development of environmentally friendly renewable energy sources and the devices

Energy Science & Engineering

- Renewable Energy
- Energy conversion and storage
- Materials design

Leading the world in brain science through convergent education and research

Brain & Cognitive Sciences

- Neuro-metabolism
- Sensory Systems
- Neuro-degeneration
- Theoretical Biophysics

Creates a next-generation paradigm of knowledge, technology, and science in the era of the new biology for sustainable humanity

New Biology

- Aging Biology
- Nano-bio Imaging
- Systems and Complex Biology
- Bio-sustainability
- Biochemistry and Biophysics

- All classes in the graduate school are delivered in English.
- Semester : March~June (Spring), Sep. ~Dec. (Fall)

CONVERGENCE RESEARCH INSTITUTE

OTHER RESEARCH DIVISIONS

Korea Brain Research Institute

- DGIST-affiliated and Korea's first government-funded national research institute for brain research
- Founded to concentrate national brain research abilities and serve as hub of national brain research

IBS-Center for Plant Aging Research

- A national research group that receives research funding from the Korean government annually
- Systems understanding on the complex processes of plant senescence and life span

Center for Core Research Facilities

DGIST Supercomputing & Bigdata Center

Laboratory Animal Resource center

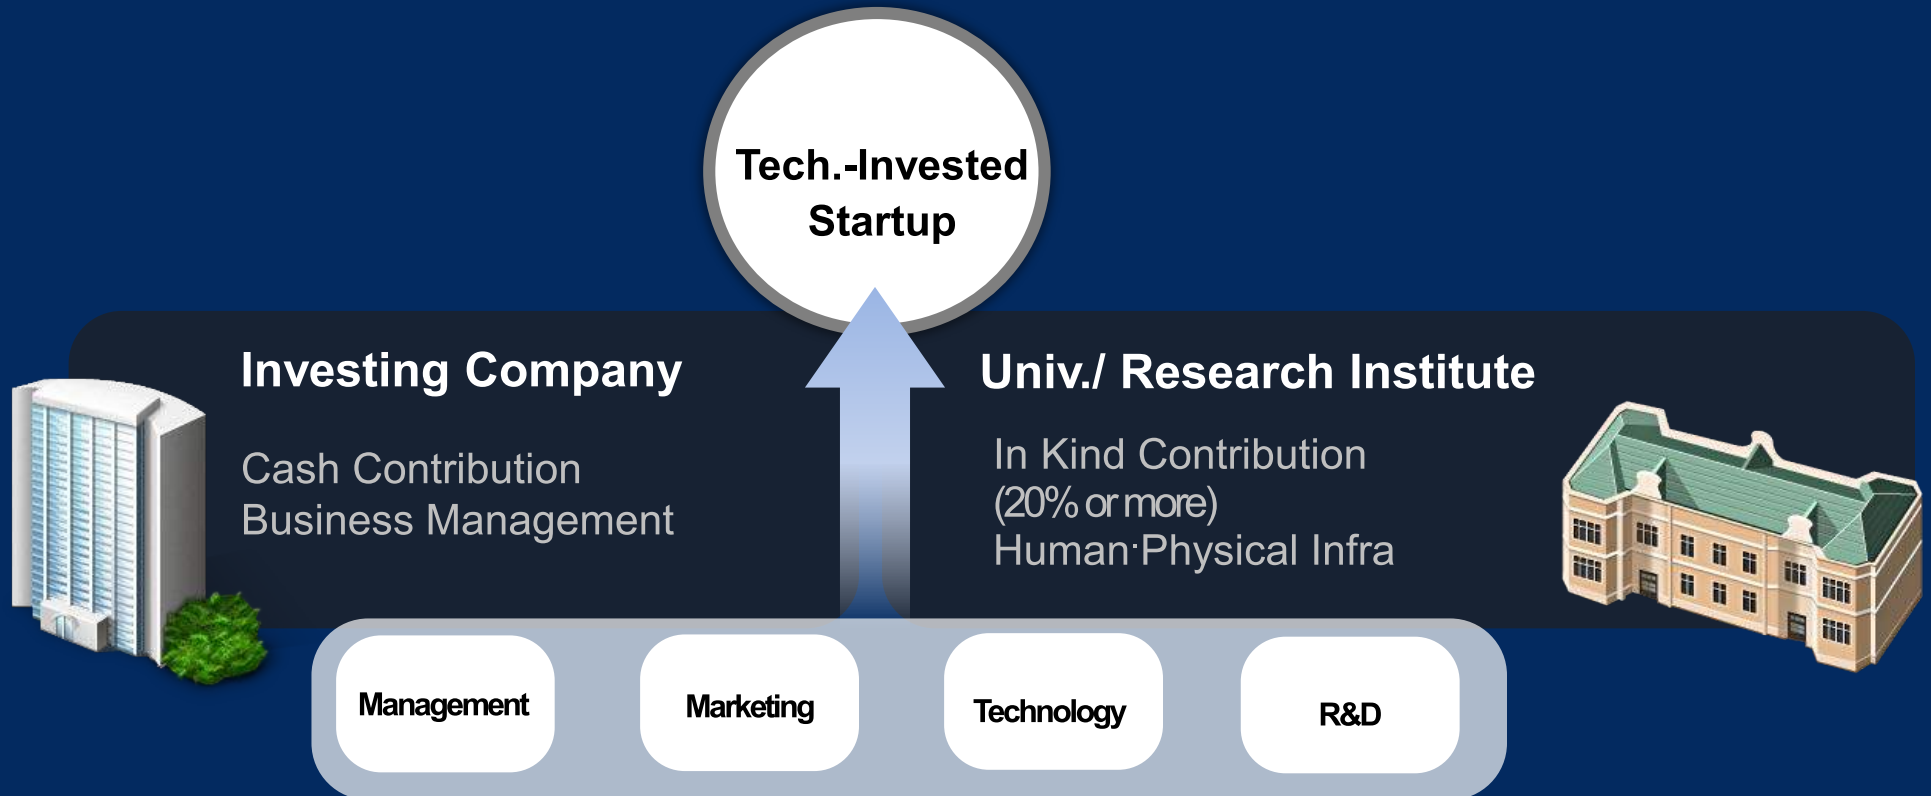

**Office of
University-Industry
Cooperation**

Center for Technology Commercialization and Innovation

Center for Technology Incubation and Development of Entrepreneurs

TECHNOLOGY-INVESTED STARTUP

Innovative Startup Model combining Public Institution's Advanced Technology and Private Entities' Management Capabilities

[Ideal Startup Model with maximized synergy effect through combination of researcher's research ability and entrepreneur's management skills]

DGIST TECHNOLOGY-INVESTED STARTUPS

Green Mobility
Personal Mobility
(Two/Three-wheeled Electric Vehicles)

Jeongkwan Materials
Thermoelectric refrigeration and
industrial ventilation system

Innature C&H
Functional facial mask
pack fused with nano fiber

Care-Robo Systems
Training and Rehabilitation
Robots

DGM-Tech
Logistic robots and
rehabilitation products

Vine IT
Smart Campus Solutions

Korean Materials
Metal hydroxide-based flame
retardant and insulation

G-Tech ICS
Steel and concrete composite
structure maintenance robot

Pyunghwa Tech
Research Institute
MEMS Microphone

MEGAPEM
Endoscope in olfactory stimulation system

C2LGIS
MMS, 3D Camera, LIDAR

DrimAES
AUTOSA-based
Automobile SW Platform

GNS Mobience
Portable Smart TV available
for disaster response

NEOCOGNO
Smart Interaction
Commercialization

GLOBAL NETWORK

DGIST is working together closely with our partners around the world to promote mutual development in education and research.

Japan

- Waseda University (Graduate School) 2012
- Yamanashi University 2011
- University of Tokyo (Hori Lab) 2009
- Kyoto University (Institute for Chemical Research) 2008

United States

- Agilent Technologies 2012
- Purdue University (College of Technology) 2012
- Lawrence Berkeley National Laboratory 2012
- MIT (Biomimetic Robotics Lab) 2012
- University of Texas, Dallas (School of Eng.) 2012
- Texas A&M University 2011
- Johns Hopkins University 2010
- California Institute of Technology (Hoffmann Lab) 2009
- University of Virginia 2016

Hong Kong

- Hong Kong Polytechnic University (Dept. of Computing) 2012

Switzerland

- Swiss Federal Institute of Technology Zurich 2012

Netherlands

- Maastricht University (2015)

Spain

- Universitat Autònoma de Barcelona 2009

Hungary

- University of Debrecen (Medical and Health Science Center) 2010

India

- Indian Institute of Science (IISc), Bangalore 2012

Germany

- The German Research Center for Artificial Intelligence (Robotics Innovation Center) 2011

France

- The Institut National des Sciences Appliquées Centre Val de Loire (2016)
- The University François-Rabelais of Tours (2017)

Dormitory

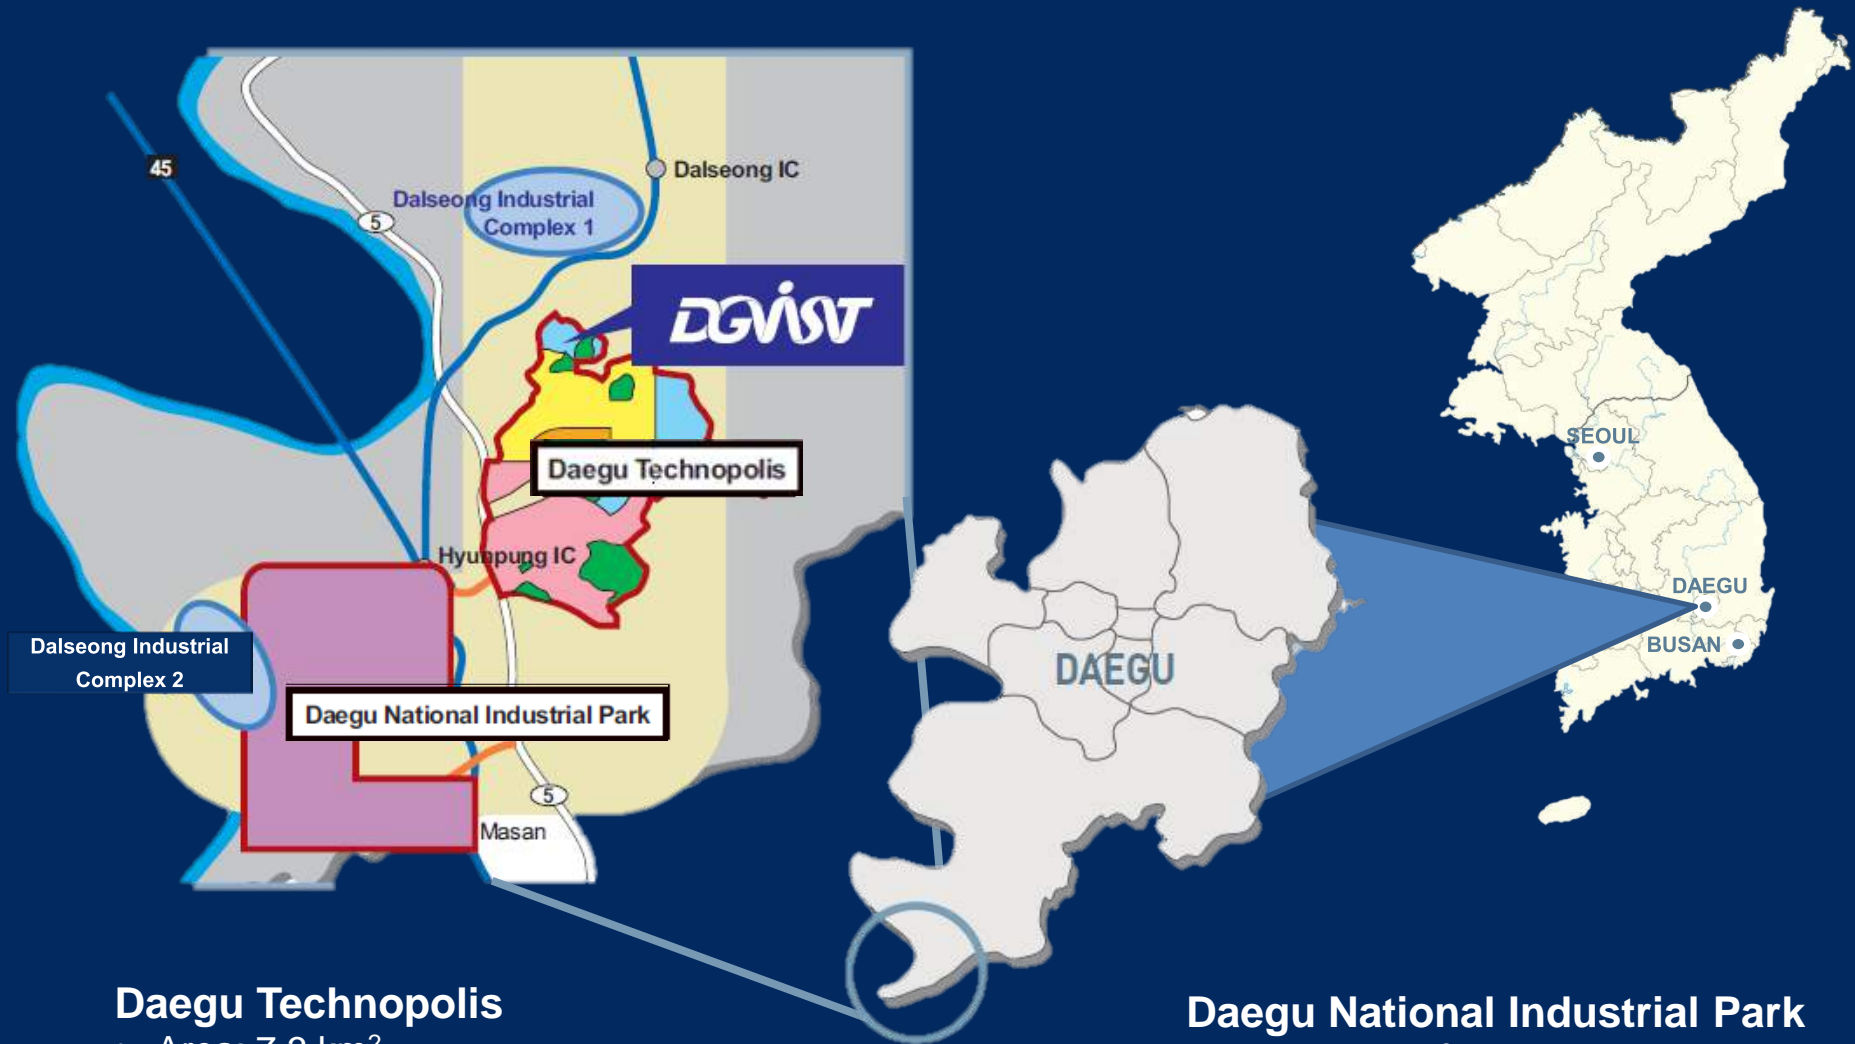

Sport Complex

Library

LOCATION

Daegu Technopolis

- Area: 7.3 km²
- High-tech multi-functional new city
- Universities, research institutes, high-tech industries

Daegu National Industrial Park

- Area: 8.5 km²
- Industries from home and abroad
- 9 kms away from DGIST

DGIST
