## TIP POLICY 2018-2019

The Lakeside Restaurant's staff and students are delighted to be at your service. As a training facility, your custom in our restaurant ensures that the managers of the future's learning can be facilitated. For which we extend our gratitude for.

Tipping is not necessary and would be politely declined in accordance with University policy if offer by means of internal cost code. All other tips are equally unnecessary however any monies we do graciously receive are remunerated to our staff and students equally. We are unable to reward our students with monetary sums and therefore out of fairness tips are distributed throughout the year via social events and gifts for all team members.

We thank you for your custom and support in the training of our students and are always welcoming of any feedback.
