

# Seeing the unseen

Discover the hidden wonders of the universe

5:30 - 9pm, 29 October 2018, Main University Hall, University of Surrey

Join in with physicists from the University of Surrey celebrating International Dark Matter Day. Discover how cutting edge physics is allowing us to see the unseen in astronomy, quantum technologies, medical physics and much more. Activities include

demonstrations and activities with the researchers, talks, star gazing, arts and crafts and a mobile planetarium. Talks about the scientists that have been awarded the 2018 Nobel prize in physics for creating groundbreaking tools from beams of light.

## Free event, all welcome.

This event is free to attend. Tickets can be bought online at:  
[eventbrite.co.uk/e/seeing-the-unseen-tickets-50690043284](https://eventbrite.co.uk/e/seeing-the-unseen-tickets-50690043284)  
Please contact us in advance if you have any access requirements.
