## COURSE OBJECTIVE: FASHION, DESIGN AND LUXURY INDUSTRY MANAGEMENT

The *Fashion, Design and Luxury management* path focuses on luxury and fashion brands. In order to fully understand the specificities of the luxury and fashion industry and its management, participants will explore the main advances and developments in the various luxury sectors.

Participants will acquire an advanced understanding of the new global dimension of this industry, as well as the socio-cultural and context-related impacts on the branding of products in this sector. The growth of the luxury industry in fast growing economies is generating many questions on how luxury brands and large luxury groups can reorganize and restructure in order to improve both their social and environment performance in a world facing increasing inequality and ethical issues.

This year, you will have the unique opportunity to enjoy this Summer School course in both La Rochelle, France (8<sup>th</sup> – 20<sup>th</sup> July 2019) and Florence, Italy (21<sup>st</sup> July – 26<sup>th</sup> July 2019)!
