At the University of Surrey we are proud of the outstanding impact our students have within the business community. Benefiting from internationally recognised teaching excellence and our long-standing partnerships with organisations across the globe, our graduates are business-ready – with the ability to apply their knowledge and skills to meet your business objectives. Building on the success of our undergraduate professional training programme, we are pleased to announce a further development through the inclusion of our Postgraduate talent pool.

At Surrey Business School we accelerate innovative thinking into practice – delivering business-ready solutions that offer an immediate and lasting impact in the world. Surrey Business School is a world-class hub of business and learning, bringing together teaching excellence and pioneering research. Our MSc students represent diversity, both geographically as well as through their work or educational experiences. Undertaking a specialised MSc programme across five selected programmes, our students are equipped with both academic and workplace skills, which provide companies with an opportunity to leverage Surrey talent for the benefit of their business.

Surrey University has over 40 years of experience working with businesses from across the globe. It is through this depth of experience that we present our talent to you for placement and internship opportunities over 2019.

How a postgraduate placement can benefit your business

A Postgraduate placement student can make a real impact from day one. As part of their Masters level education and training each student has elected to focus on one of five core specialisms; meaning our Postgraduate Business students are equipped with the latest thinking from research and tools from practice – all designed to help your business with targeted problem-solving and real-world business needs.

Why a Postgraduate placement is different

Surrey Business School is a long-standing, trusted source of brilliant minds for professional training undergraduates and interns. A Postgraduate placement now offers new value-adding opportunities to your business:

- Short-term (3-6 month) commitment.
- Project oriented and problem-solving focus.
- Specialised expertise in one of five core business areas.
- International perspectives and best practice.
- Engagement with MSc Programme Directors to help define your project.
- Tutor support for students throughout.
- Thorough interview and selection process to help you match your business needs to the right student.

I can collaborate with some of the best business minds I gain a competitive edge, as well as access to the best graduate talent.
What skills can our professional placements bring to your organisation?

Our postgraduate business students are equipped with a cutting-edge understanding of business needs across a diverse range of specialisms, including:

**Business Analytics**
Trained in the latest data science and prescriptive analytics, our students can help your business harness and apply key business data for optimised solutions.

**Human Resource Management**
Our students have a thorough grounding in the core areas of leading Human Resource practice. Able to take an analytical and evidence-based approach to HR issues, our students bring a fresh international perspective to your organisation.

**Marketing**
Fully equipped with digital marketing skills and entrepreneurial knowledge our students are well placed to support your strategic decision-making in: marketing research, brand and advertising research, and social media campaigns.

**Retail Marketing**
Our students blend the latest theoretical knowledge and practical background skills in key retail marketing fields, including: digital marketing, relationship marketing, consumer behaviour, fashion marketing, branding, merchandising, international retailing and retail services marketing.

**Operations and Digital Supply Chain**
Our students are equipped with the ability to build operations for your business to build competitive advantage. Able to perform business process analysis and produce strategic plans to maximise supply chain effectiveness, our students bring valued contributions.

To find out more about how your organisation can access a wealth of business talent and how placements can meet your business needs, contact:

**Nana Osei-Poku**

LinkedIn: linkedin.com/in/nana-otey-osei-poku-68563163/

Email: no00261@surrey.ac.uk

Current Course of Study: MSc in Operations and Supply Chain in the Digital Era

Educational History: B.A Sociology, Kwame Nkrumah University of Science and Technology (KNUST), Kumasi, Ghana.

Work Experience:
- Worked as an Assistant Client Manager at Standard Chartered Bank, Ghana (National Service)
- Worked as a Sales / Supplies Coordinator at CASIO / Elmisystems SA
- Worked as a Group Leader at Mediatel SA

Languages: English

Nationality: British Ghanaian

Achievements:
As a Vice president of operations for Nectars of Hope for Children foundation, I was giving the task of supervising the team that selected schools and orphans we were to visit. The team was also tasked with sourcing educational materials for the children we were to visit. Working at Savfuel petroleum as an intern and assistant to the CEO, I learned how to source out companies we would often source. This gave me some feel of marketing as I visited companies to explain our services and how we can be of use to them. I also supervised the dispensation of fuel to various customers.

**Angeliki Papathanasiou**

LinkedIn: linkedin.com/in/angelikipapathanasiou-3b057965

Email: ap01386@surrey.ac.uk
