University of Surrey Orchestra
The University of Surrey Orchestra is a hugely successful and talented orchestra delivering outstanding performances to the audiences of Guildford.

We are open to students, staff and members of the local community.

Entrance to the orchestra is by audition, players will be selected to form a high-quality ensemble performing a wide ranging repertoire our members find highly rewarding.

We rehearse most Monday evenings during each semester to perform three concerts a year. Recent repertoire has included symphonies by Beethoven, Brahms, Tchaikovsky, and Shostakovich, and film music by Danny Elfman and John Williams. This year we’ll be working on Borodin’s glowing and exhilarating Second Symphony together with the fresh colours of Aaron Copland’s masterpiece Appalachian Spring. We will also be holding more of the University’s highly popular Orchestra Days, where local musicians join students for a day of rehearsals, culminating in informal afternoon performances.

The Orchestra will host regular members’ social events providing an opportunity for all members to meet outside of rehearsals.

Players are generally expected to have reached Grade 7 or above in their instrument.

I joined BandSoc as a way of getting to know more people, and as I’ve always loved music I figured BandSoc was the perfect society for me. It is way more than just a place for musicians to find band mates, the social side means that even if you’re not a musician you can still get involved in the regular socials and gigs.

I met some people who liked similar music to me and we set up a casual band that played at the BandSoc Festival. I would say if you enjoy music and want get involved, do!

As a fresher, I thought that I was done with singing and dancing as they never were my strengths, even though I enjoyed them. However, I was convinced to try a taster session and instantly fell back in love with musical theatre! The people are lovely and welcoming and I’ve made some amazing friends. It’s a great way to deal with stress and helps me so much with my work-life balance - which is really important, especially as a fresher.
