

# Roadmap to recovery

Through all dates until 21 June social distancing and the wearing of face coverings and other measures remain in place. Dates and measures are subject to change according to latest government guidance.

## Core principles

The safety and wellbeing of our Surrey community remains at the heart of our planning to return to campus safely over the coming months.

- Two asymptomatic tests required every week for all those on/ attending campus
- Work at home where possible
- Stay at home if unwell/required to self-isolate

Covid-19 risks assessments have been conducted across the entire University and play a vital role in ensuring that the measures implemented on campus are appropriate to the activities planned and undertaken.

- Risk assessments will be kept under review to ensure all spaces are Covid-Secure

We continue to be guided by government advice and legislation.

- Observe social distancing
- Wash hands frequently for at least 20 seconds
- Wear face coverings

We will continue to facilitate working from home in line with government guidance and where this is possible, to help minimise density on campus.

We will continue to deliver the highest quality student experience through our hybrid model.

- Covid-19 Policy updated and in place
- Continuous assessment and evaluation of Covid Secure measures

These stages follow the government roadmap to recovery:

Stage 1 From 8 March 2021	Stage 1+ From 29 March 2021	Stage 2 No earlier than 12 April 2021 (subject to latest government guidance)	Stage 3 No earlier than 17 May 2021 (subject to latest government guidance)	Stage 4 No earlier than 21 June 2021 (subject to latest government guidance)
