

SCAN

(STREET-SCALE GREENING FOR COOLING AND CLEAN AIR IN CITIES) WEBINAR

‘Green Street, Cool Street’

08:00 - 10:00 (UK TIME)

17:00 - 19:00 (AUSTRALIAN TIME)

29 JUNE 2021

This free, public webinar is a part of the **SCAN** project, which provides an international platform for researchers to facilitate improved health and wellbeing in cities through knowledge exchange. It follows on from the ‘Green Street, Clean Air Street’ webinar that was held in March 2021. We will reflect on project activities and share findings and perspectives regarding the use of green infrastructure for urban cooling and air pollution mitigation.

The event will be co-chaired by **Professor Prashant Kumar** (University of Surrey, UK) and **Professor Perez Pascal** (University of Wollongong, Australia), and will feature a range of exciting talks from internationally recognised researchers in urban cooling, air quality and green infrastructure.
