ALLIANCE
End of life care partnership

ALLIANCE: Enhancing the quality of living and dying with advancing frailty through integrated care partnerships

Aim: To develop a cross-sectoral partnership to improve end-of-life care coordination for community-dwelling older people living with advancing frailty

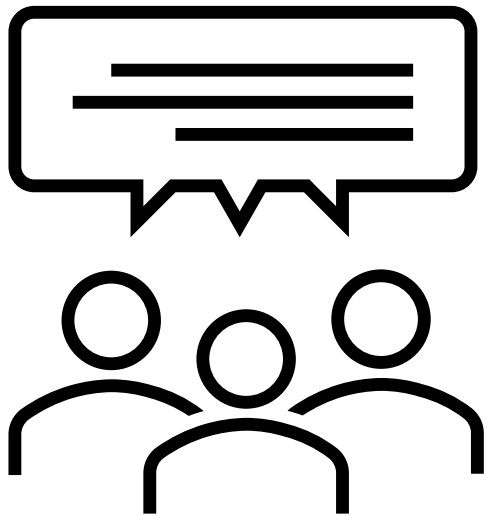

The Partnership:

- East Midlands - Derbyshire, Lincolnshire, Nottinghamshire
- Southwest London - Croydon, Kingston, Richmond
- Southeast England - East Sussex, Isle of Wight, West Berkshire

The Approach:

- Co-production approach
- Placing older people and their networks at the centre of every activity
- PPI systems embedded throughout

Breakout session 1:

What experience do you have of PPIE?

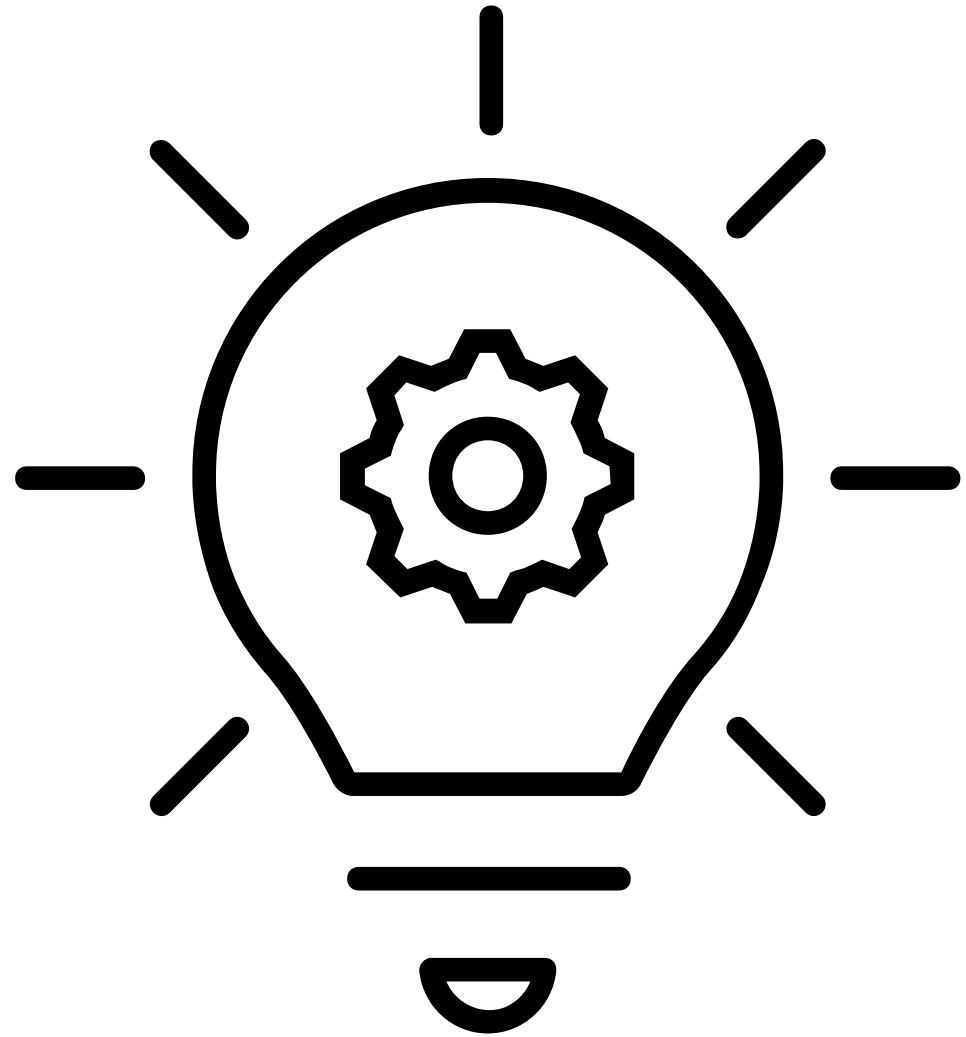

What went well, what didn't work so well, what is the learning for others?

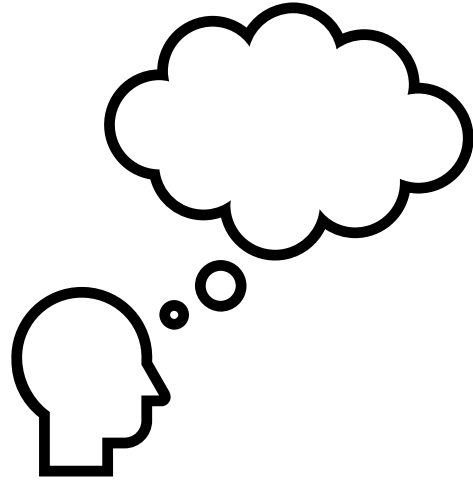

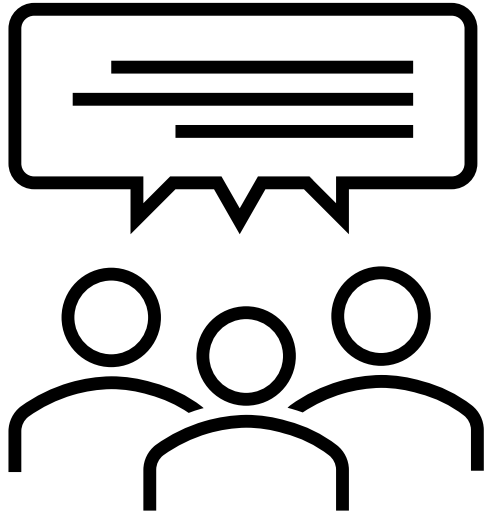

The image features a light gray background. At the top, there are four overlapping speech bubbles in yellow, red, blue, and green. Below the word 'Feedback', there are three dark blue silhouettes of people arranged in a row. The word 'Feedback' is centered in a white, bold, sans-serif font.
