### Supplementary Information and Guidance

**Travelling with a Companion** - The University recognises that Travellers visiting a business location may wish to be accompanied by a companion. This is acceptable, provided the companion does not travel at the University's expense.

The companion's travel must be invoiced separately and paid for privately. This can be arranged by contacting the TMC, who will book the entire trip and ensure that the University is invoiced for only the approved employee's travel costs. The University insurance team should also be notified of any lengthy periods of travel where the traveller is not conducting business and thus outside of the business travel insurance policy.

**Disabled Individuals** - Where an individual has a need for support staff to travel with them, the funding for the travel of support staff will come under **reasonable adjustments (Equality Act 2010)**. Each case will be judged on a case-by-case basis and justification and approval will be required by the Budget Holder.

**Carer responsibilities** – All staff with primary or shared carer responsibility who wish to attend conferences involving overnight stays or travel overseas can apply to the [Vice Chancellor's Inclusion and Career Investment Awards](#) to claim for carer costs in-line with the eligibility criteria outlined within the Fund.

**Combined Business and Personal Travel** - Combined business and personal travel is acceptable where the cost of the wholly and exclusively business related travel part of the claim is not increased as a result of the extension and where the Traveller meets all of the costs relating to the personal element.

Personal travel insurance should be arranged to cover holidays before or after a business trip and for any companion travelling with the Traveller.

**Loyalty Cards and Use of Loyalty Points** - The Traveller may not select an airline or accommodation based on the use of personal loyalty cards.

Corporate air miles are collected by the University and will be allocated for the benefit of the University.

**Medical grounds** – if an alternative class of travel is required, line managers can refer Travellers to Occupational Health to assist in the decision-making process.

**Responsibility of the Traveller** - The University will take all reasonable measures to ensure all of its Travellers are safe. To support this, the University needs to ensure the Traveller and their Line Manager and/ or sponsor have taken every precaution to secure their safety before, during and after travel.

In doing so, the Traveller should consult and abide by the risk management tool provided by the TMC. Details of this process can be found on SurreyNet under [business travel](#).

Disabled travellers will be supported in their travel requirements in compliance with the [Disability and Neurodivergence Procedure.pdf](#)
