

University of Surrey Scheme of Delegation
Approved by Council 5 February 2025 for activation on 12 March 2025

1. Introduction and Scope

This Scheme of Delegation outlines where final authority sits for key decisions made within and on behalf of the University. It consists of -

- a set of overall principles;
- tables of final approval;
- financial authority tables; and
- delegation structure schematic

In all cases the final level of authority is shown. In some instances, the prior recommendation is also given where it is important to evidence consultation and for transparency.

Whilst every attempt has been made to include all key high-level approvals, it is not possible for any Scheme of Delegation to be exhaustive in its coverage. This Scheme does not deal with responsibilities delegated to individuals through their role descriptions (this is a management responsibility). Nor does it cover the underlying processes and procedures that lead to the final approval point (the responsibility for the adequacy of which lies with the relevant executives). This Scheme also does not apply to internal accounting activities which are deemed business as usual (e.g. payroll, budget journals, etc.)

2. Principles of Delegation

Council is the governing body of the University and is its highest decision-making authority. Acting in accordance with the governing instruments, it is responsible for the general control of University affairs. A number of decisions are reserved to Council for approval which means they cannot be delegated (these are included in table 1 below). Although Council may retain authority over any decision, in reality it delegates the daily operation of the University to the Vice-Chancellor who in turn delegates to the Senior Executive Team. Council also delegates some of its activities and certain approval authorities to its own sub-committees. The Terms of Reference for Council and its sub-committees can be found [here](#).

The Senate is the senior academic body responsible for the oversight and good governance of the University's academic mission, including learning, teaching and research, and for the regulation and direction of the education and conduct of students. It delegates some of its activities and certain approval authorities to its sub-committees and these are outlined in the Code of Practice for Academic Governance. The Chair of Senate is the Provost, by delegation from the Vice-Chancellor. The Terms of Reference for Senate can be found [here](#).

The Vice-Chancellor is the Chief Executive and is the University's Accountable Officer as defined by the Office for Students. In accordance with the University's Ordinances, the Vice-Chancellor has delegated authority from Council for the daily operation of the University. The Vice-Chancellor delegates to the Senior Executive Team the responsibility for delivery of activities within their individual remits. As a collective, in accordance with the University's Ordinances, the Executive Board is advisory to the Vice-Chancellor and assists the Vice-Chancellor to discharge their obligations to Council. Throughout the document, this is reflected using the term "VC sitting as Executive Board". However, any delegation to the VC includes the VC acting alone or the VC sitting as Executive Board. The intention behind the term 'VC sitting as Executive Board' is to indicate that the expectation is that decisions will usually be made in consultation with the Executive Board.

In general, those individuals or bodies shown in this Scheme to hold authority may delegate to others as long as such delegation remains in line with University policy, procedure and regulation and that delegation is reported and recorded appropriately.

3. Financial Authority Limits

At a general level, unless otherwise stated in this Scheme of Delegation, any transaction for goods and services with a value of over £10m must be approved by Council; between £5m and £10m must be approved by the Finance Committee and between £1m and £5m must be approved by the Executive Board. Transactions below £1m are subject to the limits defined for Senior Executives, Heads of Schools, Heads of Departments, Managers and budget-holders by local procedures and the University financial systems. Budget-holders may further delegate spend authority to members of their teams within the limit of their allocated budgets. Further detail on specific approval limits is included in the tables of authority below.

4. Risk Authority Limits

In some cases, the value of a transaction is not a reliable determining factor in assessing the level of risk it poses to the University. **Unless** otherwise provided for in the Scheme, the Partnerships & Reputation Committee, a sub-committee of the Executive Board, is the primary forum where transactions with heightened risk levels are assessed against PESTLE.

5. Physical signature of contracts and other agreements

- Contracts and agreements with associated spend: Approval to sign the contract must be in accordance with Section 12. Physical signature may be delegated by the individual or body approving the contract.
- Contracts and agreements with no associated spend (Excluding research contracts): Signature to be at Director level.
- Research contracts may be signed by the individual approving the research activity or post-approval:
 - Up to £1m: Director RII, RII Head of Operations, RII Head of Assurance, RII Head of Corporate and Research Finance
 - Over £1m Pro Vice-Chancellor Research & Innovation or above.
- Requests for signature by “authorised representatives” about University legal and fiscal status (usually for international activities, EU grants, etc.): Signature to be a member of Council or University Secretary & General Counsel.

6. Other general principles

- Council and Senate retain the power to exercise delegated functions other than through the delegate.
- The Vice-Chancellor retains the power to exercise delegated functions other than through the delegate.
- In line with the Vice-Chancellor’s accountability to Council, where delegations are to the Executive Board, the Vice-Chancellor is the primary delegate.
- Decisions must not exceed the stated level of authority.
- Decisions of Committees may be delegated to individuals or groups in appropriate circumstances. Such delegations must be approved by the Chair of the Committee and formally recorded in minutes.
- The Terms of Reference for committees must include reference to any specific decision-making authority delegated to it in line with this Scheme, especially where financial limits apply
- Decisions should be consistent with the University’s mission, vision and strategic plan.
- Decisions must consult and adhere to relevant regulatory, legal and policy frameworks.

- Decisions must be taken in line with University policy and procedure.
