GUIDE FOR CARE LEAVERS

2016/17
Making the choice to study at university is a big step for all students. You will be entering a world full of new opportunities, new friends, and new ways of thinking. When you decide to take this step we want to make sure that you receive the right level of support and guidance for you.

At the University of Surrey, we provide a challenging, supportive environment for our students to explore their potential and develop their talents. We have dedicated staff who can provide you with a complete package of in-depth information, support and advice to support your needs as a prospective student; throughout your time at Surrey and on into Alumni. This service is completely optional and if you do decide to access the support available it is up to you to decide what, and how much you would like.

We have designed this guide to make you aware of the full range of support and information readily available for you to access if you choose to. We have also provided key contacts and websites where you can find further information.
UCAS
When you begin your application through UCAS you will find a check box that you can tick to identify yourself as a young person in care or a care leaver. Ticking this box will not affect the University’s decision to accept your application and means we can contact you about any bursaries or compact schemes you might be entitled to.

Applicant and Open Days
The University offers a number of Applicant and Open Days throughout the year. On these days the University opens its doors to prospective students and those who have already applied to meet the academics who will be teaching them and explore the facilities and the campus they could be studying at. The day also offers a chance to meet with Student Support staff and find out more about the support offered by Student Support Services.

For detailed information on applying to Surrey, Open Days and Applicant Days please visit surrey.ac.uk/apply

In2Surrey Scheme
Once you’ve made the decision to apply to the University of Surrey you will have the option of applying to our In2Surrey Scheme. Please be aware that you’ll need to be holding an offer from the University in order to participate.

The In2Surrey Scheme is a programme designed to help minimise barriers to Higher Education for certain groups of students. Students who
successfully complete the scheme receive a reduction in their offer by the equivalent of one A-Level. Alternative offers are available for those students studying A-Levels, International Baccalaureate and Access to HE qualifications. Please note that for BTEC (QFC Level 3 Extended Diploma) students we may be unable to make a reduction of one grade due to A-Level equivalencies.

Other benefits of the scheme include access to an E-Mentor who will be a current undergraduate student available to help guide you through the scheme, offer advice and guidance and help you with the transition to university. You will also receive a one-off In2Surrey Award of between £500 and £2000 at the end of your first semester, this does not need to be paid back. We will also invite you to two special events on campus including a pre-entry day.

You will have a point of contact at the University as well who can direct you to available services and answer any of your questions.

In exchange we will ask you complete a piece of work that is set and marked by university academics and finally in order to “activate” your alternative offer you will need to make us your firm choice.

To find out more, check the eligibility criteria and download the application form please visit surrey.ac.uk/in2surrey

**Library Access**

As a member of the public you are able to access the University of Surrey’s library which contains copies of recommended reading textbooks for each course Surrey provides. It also hosts a large collection of online journals and e-books which you are able to access on site with no fee.

To find out more about the library services visit surrey.ac.uk/library/using/visitors
ONCE YOU’RE HERE

Now you’ve made the transition to Higher Education, at the University of Surrey you have access to an optional package of academic, financial and pastoral support and advice. All care leavers who self-declare their background are offered direct, one-to-one contact with the Head of Student Support Services as a point of contact for all welfare and support issues within the University. You are invited to an interview to discuss any support or other needs you have at an early point in the application cycle, and an action plan responding to your needs will be agreed and monitored by the Head.

Academic Support
At the University of Surrey we want you to succeed so we have a range of academic support mechanisms and services to ensure you do. From generic study skills training to personal academic tracking.

Faculty Student Services
Your Faculty Student Services office can help you on academic related queries relating to your programme and your coursework and exams.

For contact details see: surrey.ac.uk/currentstudents/ask/faculty_services/

Personal Tutor
Each student is assigned a Personal Tutor. The role of your Personal Tutor is to monitor and appraise your academic progress and to take a particular interest in your general welfare. You will meet with them regularly to discuss what’s going well and any concerns you might have.

SPLASH (Student Personal Learning and Study Hub)
SPLASH is located in the library. It offers workshops for groups and one to one drop in sessions and appointments with the Learning Development Advisors, who can give advice on aspects of your academic studying, whether you want to improve your written work, practice a presentation, work on your time management or develop any other skill to help you succeed in your studies. The library also has a number of Information Skills Librarians and subject pages which provide links to key subject resources.

ALS (Additional Learning Support)
If you have a disability or long term medical condition that affects your day to day life the ALS team are available to offer support to you throughout the year. It can offer assistance to student’s difficulties such as:
• Specific Learning Difficulties e.g. Dyslexia/ dyspraxia/ADD
• Sensory Impairments
• Mobility difficulties
• Asperger Syndrome / Autism
• Long term medical conditions, e.g. Crohn’s Disease, M.E. or epilepsy
• Mental Health Difficulties

The ALS team are also available by appointment to give advice on funding support available from the Disabled Students Allowance (DSA) and are able to advice on extended deadlines and borrowing rights where necessary.

Financial Support
The University of Surrey has a number of Bursaries and Scholarships available to students. Please look on our Fees and Funding page to find out what’s available to you: surrey.ac.uk/uge fees. You may also be able to apply for a one off bursary from your local authority.

The University of Surrey offers a guaranteed minimum bursary of £1,000 on entry to qualifying students who have been in local authority care. The £1,000 is not paid in addition to the Full Surrey Award.

As well as our scholarship awards there is other help available to finance your degree. Based in the Student Services Centre, our Student Money Advisers can help with any financial problems or queries you may have, and try to ensure that your time as a student at Surrey runs as smoothly and problem-free as possible.

We know that sometimes it’s the little things that make all the difference so we offer student loan and funding checks to make sure you are receiving everything you are entitled to. We also have our own in-house recruitment agency, UniTemps, which is based on campus and offers a range of flexible paid part-time work, both on- and off-campus.

The University’s Hardship Fund is for students who fall into financial trouble and have exhausted all other options. It can offer grants ranging between £100 and £4,000 for students which you do not have to pay back. The hardship fund frequently receives requests from students including student care leavers.

Student Services
The Student Service Centre offers a comprehensive and detailed package of support and is available to you at any time during your studies. If you need information, advice or guidance on any matter they will be able to advise you which service can best deal with your request. The support services we offer at the University include the following:

Accommodation Services - on campus accommodation is provided for new undergraduate students, providing they have applied for accommodation by the set deadline and they meet the conditions of their formal academic offer, please see surrey.ac.uk/accommodation for full details. Students with special requirements may be offered accommodation in other years of study, if they are formally supported, please contact us if you wish to discuss further. Summer accommodation can be applied for by any student.

Private housing and housing advice - Both the Student Money Team and the University of Surrey Lettings team (USL) offer contract checking for students who are moving into the private sector. Moving into private housing, away from campus, can be daunting especially if this is your first experience of this. By having your tenancy agreement/housing contract checked it means that we can support you with any terms you don’t understand, or which could be unfair, before you sign. We also offer general housing advice and tips, for example on how deposits work, mediation/advice if you are having issues with your landlord/other housemates, and signposting to legal agencies should you require more specialised support. The University also offer a Guarantor Scheme for students who do not have a UK based guarantor (which is a usual requirement of private renting). The Student Money team can also recommend student who are in exceptional financial hardship for a room on campus based on these grounds.

Student Life Mentors - These are current students who have experience of both living and studying at Surrey, they are allocated to all new undergraduate and postgraduate students. Mentors visit students living in the University residences, supporting them by giving them advice and signposting them to the support services available at the University. Mentors also organise social events to build a sense of
community at Surrey and to help residents get to know each other.

Centre for Wellbeing - The Centre for Wellbeing has a dedicated team of nurses supporting, advising and advocating for student health and wellbeing, as well as a team of highly skilled registered councillors who offer free one-to-one counselling to students. The centre also offers a programme of groups and workshops throughout the year which offers opportunities to learn skills which will help you manage your wellbeing.

In addition, the University has an NHS Medical Practice on campus.

Faith & Chaplaincy - The University of Surrey is a bright multi-faith, multi-cultural community with many faith and belief societies as well as chaplains from different faiths. They operate on campus and offer support and advice to all students whether you follow that faith or belief or are simply interested in finding out more.

Employability and Careers Centre - The Careers Centre on campus is available to offer you a wide range of support and resources to help you make career decisions. It is staffed by qualified professional career advisors who can deliver one-to-one personal career guidance, helping to find opportunities right for you and making sure you are prepared and ready to go after them with CV, application and interview advice. This service isn’t just open to you whilst you are a student but can also be accessed as a University of Surrey graduate.

University of Surrey Students’ Union (USSU) - The University of Surrey Students’ Union is not-for-profit charity, independent from the University that represents all University of Surrey students on a local and national level. As well as hosting all the clubs and societies and a huge programme of entertainment the SU are there to speak up for you if you have a question or problem and regularly meet with University staff to ensure your voices are heard.

For students still at school or college the department of Widening Participation & Outreach (WP&O) offers a wide variety of engaging and informative workshops for school students. Activities can include Subject Taster days, Curriculum Specific Enhancement sessions and Information, Advice and Guidance sessions which offer impartial advice on University courses, student services, accommodation, and finance.

Year 12 students can apply to our residential summer school programme for a taste of university life in their chosen subject area surrey@ac.uk/summer

INFORMATION FOR STUDENTS STILL IN SCHOOL, FOSTER CARERS, TEACHERS AND VIRTUAL HEADS

The department of Widening Participation & Outreach (WP&O) offers a practical and engaging range of activities to enable you and your students to gain a better understanding of life and study at university to help them make those key decisions about their future.
