# Launch Meeting

Monday 14<sup>th</sup> July

12.30 pm

University of Surrey

The Parkinson's Disease Clinical Academic Group invites researchers, clinicians, service commissioners, providers and all parties interested in Parkinson's to the launch. The event aims to promote knowledge exchange and understanding of all aspects of Parkinson's disease and enhance collaboration both for existing work and new research.

The focus is on better understanding of the disease to inform therapy and to improve life for those affected as well as for carers.

The launch meeting is an essential opportunity for everyone associated with Parkinson's disease research and service provision to hear about exciting current initiatives and consider the benefits of being positively involved. We look forward to meeting you.

Please enter the date in your diary.

Full programme details will follow.
